

CHIPOTLE ANNOUNCES FIRST QUARTER 2019 RESULTS

EPS INCREASES 46.9% AS RESTAURANT MARGINS EXPAND TO 21%, AND SALES COMP ACCELERATES TO 9.9%

NEWPORT BEACH, Calif., April 24, 2019 [/PRNewswire/](#) -- Chipotle Mexican Grill, Inc. (NYSE: CMG) today reported financial results for its first quarter ended March 31, 2019.

First quarter highlights, year over year:

- Revenue increased 13.9% to \$1.3 billion
- Comparable restaurant sales increased 9.9%, net of 30 bps from loyalty deferral, and included 5.8% of comparable restaurant transaction growth and 2% in mix contribution
- Digital sales grew 100.7% and accounted for 15.7% of sales for the quarter
- Restaurant level operating margin was 21.0%, an increase from 19.5%
- Diluted earnings per share was \$3.13, net of a \$0.27 after-tax impact from expenses related to restaurant asset impairment, corporate restructuring, and certain other costs, a 46.9% increase from \$2.13. Adjusted diluted earnings per share excluding these charges was \$3.40, a 59.6% increase from \$2.13.¹
- Opened 15 new restaurants and closed 2

¹ Adjusted net income and adjusted diluted earnings per share are non-GAAP financial measures. Reconciliations to GAAP measures and further information are set forth in the table at the end of this press release.

"The on-going improvement in each of our key operating metrics over the past few quarters gives us confidence that our mission to win today and cultivate the future, is resonating," said Brian Niccol, chief executive officer. "This is the fifth consecutive quarter of accelerating comps, which reinforces our view that when we connect with guests through culturally relevant marketing focused on Chipotle's great taste and real ingredients, and provide more convenient access with less friction, they respond enthusiastically."

Results for the three months ended March 31, 2019:

Revenue for the quarter was \$1.3 billion, an increase of 13.9% from the first quarter of 2018. The increase in revenue was driven by a 9.9% increase in comparable restaurant sales and new restaurant openings. Comparable restaurant sales improved primarily as a result of a 5.8% increase in comparable restaurant transactions and included a 30 basis point negative impact as a result of deferred revenue from our Chipotle Rewards loyalty program.

We opened 15 new restaurants during the quarter and closed 2, bringing the total restaurant count to 2,504.

Food, beverage and packaging costs were 32.2% of revenue, a decrease of 20 basis points compared to the first quarter of 2018. The decrease was primarily due to the modest menu price increase at the end of 2018, partially offset by an increased demand for steak (a higher priced ingredient), and higher paper cost.

Restaurant level operating margin was 21.0% in the quarter, an improvement from 19.5% in the first quarter of 2018. The improvement was driven primarily by comparable restaurant sales increases and lower repair and maintenance expense, partially offset by wage inflation, increased marketing and promotional cost, and delivery expense associated with increased delivery sales.

General and administrative expenses were 7.8% of revenue for the first quarter of 2019, an increase of 110 basis points over the first quarter of 2018. In dollar terms, general and administrative expenses increased compared to the first quarter of 2018 primarily due to \$13.1 million in increased performance bonus expense including: non-cash stock-based compensation, bonus expense, and associated taxes; \$3.4 million in outside service expense related to company initiatives to support restaurant growth, including digitizing and modernizing our restaurant experience; \$4.3 million related to restructuring; and \$1.3 million in other expenses.

The effective tax rate decreased to 22.2% in the first quarter of 2019, compared to 36.9% in the first quarter of 2018. The decrease was primarily due to unfavorable discrete tax items in the first quarter of 2018 including equity vesting at an amount less than original book value and negative impacts from tax reform, and favorable discrete tax items in the first quarter of 2019 related to stock option exercises.

Net income for the first quarter of 2019 was \$88.1 million, or \$3.13 per diluted share, compared to net income of \$59.4 million, or \$2.13 per diluted share, in the first quarter of 2018. Excluding the impact of restaurant asset impairment, corporate restructuring, and certain other costs, adjusted net income was \$95.5 million and adjusted diluted earnings per share was \$3.40.

Outlook

For 2019, management is anticipating the following:

- Mid to high single digit comparable restaurant sales growth, up from the prior mid-single digit growth expectation
- 140 to 155 new restaurant openings
- An estimated underlying effective full year tax rate on the low end of the previously disclosed range of 27.0% and 30.0%, excluding the potential impact of excess tax deductions from equity vesting or exercises

Definitions

The following definitions apply to these terms as used throughout this release:

Comparable restaurant sales, or sales comps, and comparable restaurant transactions represent the change in period-over-period sales or transactions for restaurants in operation for at least 13 full calendar months.

Average restaurant sales refers to the average trailing 12-month sales for restaurants in operation for at least 12 full calendar months.

Restaurant level operating margin represents total revenue less direct restaurant operating costs, expressed as a percent of total revenue.

Forward-Looking Statements

Certain statements in this press release, including statements under the heading "Outlook" about our expected comparable restaurant sales, effective tax rate and estimated number of new restaurant openings in 2019, are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. We use words such as "anticipate", "believe", "could", "should", "estimate", "expect", "intend", "project", "target", and similar terms and phrases, including references to assumptions, to identify forward-looking statements. The forward-looking statements in this press release are based on information available to us as of the date any such statements are made and we assume no obligation to update these forward-looking statements. These statements are subject to risks and uncertainties that could cause actual results to differ materially from those described in the statements, including but not limited to the following: the uncertainty of our ability to achieve expected levels of comparable restaurant sales due to factors such as changes in consumers' perceptions of our brand, including as a result of actual or rumored food-borne illness incidents or other negative publicity, the impact of competition, including from sources outside the restaurant industry, decreased overall consumer spending, or the inability to increase menu prices or realize the benefits of menu price increases; the risk of food-borne illnesses and other health concerns about our food or dining out generally; risks associated with our increased focus on our digital business, delivery orders and catering, including our inability to continue to grow these business lines and risks arising from our reliance on third parties to fulfill delivery orders; factors that could affect our ability to achieve our planned expansion, such as the availability of suitable new restaurant sites and our ability to attract and retain qualified employees; the performance of new restaurants and their impact on existing restaurant sales; the potential for increased labor costs or difficulty training and retaining qualified employees, including as a result of market pressures, enhanced food safety procedures in our restaurants, or new regulatory requirements; increases in the cost of food ingredients and other key supplies or higher food costs due to changes in supply chain protocols or new or increased export duties, tariffs or trade restrictions; risks related to our marketing and advertising strategies, which may not be successful and may expose us to liabilities; risks relating to our expansion into new markets, including outside the U.S., or non-traditional

restaurant sites; the impact of federal, state or local government regulations relating to our employees, our restaurant design, or the sale of food or alcoholic beverages; risks associated with our Food With Integrity philosophy, including supply shortages and potential liabilities from advertising claims and other marketing activities related to this philosophy; privacy and cyber security risks associated with our acceptance of electronic payments or electronic storage and processing of confidential customer or employee information; risks relating to litigation, including possible governmental actions related to food-borne illness incidents, as well as class action litigation regarding employment laws, advertising claims or other matters; risks relating to the impact of social media, including the rapid proliferation of information about our restaurants or brand that may be unfavorable; risks regarding our ability to protect our brand and reputation; risks associated with our reliance on certain information technology systems; risks associated with our dependence on key personnel; and other risk factors described from time to time in our SEC reports, including our most recent annual report on Form 10-K and subsequent quarterly reports on Form 10-Q, all of which are available on the investor relations page of our website at ir.Chipotle.com.

Reconciliation of Non-GAAP Financial Measures
(in thousands, except per share amounts)

The following provides a reconciliation of non-GAAP financial measures presented in the text above to the most directly comparable financial measures calculated and presented in accordance with GAAP.

Adjusted net income is net income excluding restaurant asset impairment, corporate restructuring, and certain other costs. Adjusted diluted earnings per share is adjusted net income divided by diluted weighted-average common shares outstanding. We believe that these measures enhance investors' ability to compare the past financial performance of our underlying business with our current business performance and reflect the performance of our underlying restaurants separate from asset impairment, corporate restructuring and certain other costs at the corporate level. Management uses these non-GAAP measures for similar purposes. Our adjusted net income and adjusted diluted earnings per share measure may not be comparable to other companies' adjusted income measures.
