

CHIPOTLE ANNOUNCES FOURTH QUARTER AND FULL YEAR 2020 RESULTS

Fourth Quarter Results Demonstrate Chipotle's Resiliency And January Comps Accelerate FY20 Digital Sales Grew 174% Year-Over-Year To \$2.8 Billion

NEWPORT BEACH, Calif., Feb. 2, 2021 [/PRNewswire/](#) -- Chipotle Mexican Grill, Inc. (NYSE: CMG) today reported financial results for its fourth quarter and fiscal year ended December 31, 2020.

Fourth quarter highlights, year over year:

- Total revenue increased 11.6% to \$1.6 billion
- Comparable restaurant sales increased 5.7%
- Digital sales grew 177.2% and accounted for 49.0% of sales
- Restaurant level operating margin was 19.5%, an increase of 30 bps
- Diluted earnings per share was \$6.69, which included an income tax benefit of \$3.77, partially offset by a \$0.56 after-tax impact from expenses related to legal, corporate restructuring, and certain other costs, a 162.4% increase from \$2.55. Adjusted diluted earnings per share excluding these charges and the income tax benefit was \$3.48, a 21.7% increase from \$2.86.¹
- Opened 61 new restaurants including two relocations, and closed one

Full year 2020 highlights, year over year:

- Total revenue increased 7.1% to \$6.0 billion
- Comparable restaurant sales increased 1.8%
- Digital sales grew 174.1% and accounted for 46.2% of sales
- Restaurant level operating margin was 17.4%, a decrease of 310 bps
- Diluted earnings per share was \$12.52, which included an income tax benefit of \$3.79, partially offset by a \$2.00 after-tax impact from expenses related to legal, corporate restructuring, restaurant closure costs, and certain other costs, a 1.1% increase from \$12.38. Adjusted diluted earnings per share excluding these charges and the income tax benefit was \$10.73, a 23.6% decrease from \$14.05.¹
- Opened 161 new restaurants including six relocations, and closed nine

¹ Adjusted net income and adjusted diluted earnings per share are non-GAAP financial measures. Reconciliations to GAAP measures and further information are set forth in the table at the end of this press release.

"We are pleased to report a strong ending to what has been a challenging year. Despite the difficult backdrop, our ability to pivot and adapt to the rapidly changing needs of our guests is a testament to the durability of our business model and the strength of our team members," said Brian Niccol, Chairman and Chief Executive Officer, Chipotle. "Expanding access and convenience through our digital ecosystem has kept the Chipotle brand relevant and with world class talent, an inclusive culture, strong business fundamentals and deep financial strength, we are well prepared to emerge even stronger post-COVID."

COVID-19 and Liquidity Update:

Given the resurgence in COVID cases during the fourth quarter, the health and well-being of our employees and guests remains our top priority. We are benefitting from investments over the past several years including advanced air filtration systems, sanitizers throughout the restaurant, wellness protocols, and improved handwashing. In addition, we are closely following the recommendations of the CDC and local health departments and have implemented social distancing, wearing face masks, a tamper evident packaging seal for all digital orders, and created a new steward role to sanitize high-traffic areas. Collectively, these efforts give our employees and guests confidence that Chipotle remains steadfast in our commitment to keep them safe.

As of December 31, 2020, Chipotle maintains a strong financial position with \$1.1 billion in cash, investments and restricted cash, and no debt, along with a \$600 million untapped credit facility with which to continue to navigate this crisis. Our financial strength gives us the opportunity to make on-going strategic investments in our people, business, and communities, which we believe will benefit us for years to come. At the same time, our team remains focused on reducing non-essential controllable costs and judiciously spending on return generating projects to preserve liquidity.

Fourth quarter 2020 results:

Total revenue for the quarter was \$1.6 billion, an increase of 11.6% from the fourth quarter of 2019. The increase in total revenue was driven by a 5.7% increase in comparable restaurant sales and new restaurant openings. Comparable restaurant sales were fairly consistent in each month of the fourth quarter due to a combination of factors including healthy demand for Carne Asada, strength in digital sales, and the benefit of a delivery menu price increase. Comparable restaurant sales began to

improve towards the end of December and this trend has continued with January comparable restaurant sales growing around 11%. Comparable restaurant sales in the last week of January were in the high single digits, with winter weather across the country contributing to the lower comp. Assuming the pandemic doesn't worsen, we expect first quarter 2021 comparable restaurant sales to be in the mid to high teens range given an easier comparison during the second half of March.

Digital sales grew 177.2% year over year to \$781.4 million and represented 49.0% of sales. About half of the digital sales were via delivery, benefiting from our expanded partnerships, with the remainder coming from order ahead transactions as guests better understand the value offered by this channel, as well as the convenience of more Chipotlanes.

We opened 61 new restaurants including two relocations during the quarter and closed one. During the quarter, 42 of the 61 new restaurants included a Chipotle. These formats continue to enhance customer access and convenience while also helping increase new restaurant sales, margins, and returns.

Food, beverage and packaging costs were 31.0% of total revenue, a decrease of 210 bps compared to the fourth quarter of 2019. The decrease was primarily due to the benefit of menu price increases, along with better waste control and a more favorable protein mix, partially offset by fewer sales of high margin beverages and higher dairy pricing.

Restaurant level operating margin was 19.5% in the quarter, an improvement from 19.2% in the fourth quarter of 2019. The improvement was driven primarily by leverage from the comparable restaurant sales increase, menu price increases, and lower avocado pricing, partially offset by COVID-19 related impacts including increased delivery expenses, exclusion pay and fewer sales of high margin beverages.

General and administrative expenses were \$124.0 million on a GAAP basis, or \$114.4 million² on a non-GAAP basis, excluding \$6.8 million related to several legal matters and \$2.8 million related to transformation expenses, restaurant closure costs and certain other costs. GAAP and non-GAAP general and administrative expenses for the fourth quarter of 2020 also included underlying general and administrative expenses totaling \$89.6 million, \$20.7 million related to non-cash stock compensation, \$0.5 million related to employer payroll taxes associated with equity awards and \$3.6 million related to higher bonus accruals from our strong operating performance despite the pandemic.

The GAAP effective tax rate was negative 62.2% in the fourth quarter of 2020, compared to 28.3% in the fourth quarter of 2019. The decrease was due primarily from our estimated federal net operating loss for tax year 2020, which we expect to carryback to the preceding five years. We generated a net operating loss for tax purposes due to several factors, including the impact of COVID, increased tax deductions for equity vesting and exercises, accelerated tax depreciation deductions and various tax planning initiatives. The income tax benefit generated is due to the difference in federal tax rates between 2020 and the years to which the federal net operating loss will be carried back to. On a non-GAAP basis, the 2020 fourth quarter effective tax rate was 24.6%².

² Non-GAAP general and administrative expenses and non-GAAP effective tax rate are non-GAAP measures. Reconciliations to GAAP measures and further information are set forth in the table at the end of this press release.

Net income for the fourth quarter of 2020 was \$191.0 million, or \$6.69 per diluted share, compared to net income of \$72.4 million, or \$2.55 per diluted share, in the fourth quarter of 2019. Excluding the impact of the tax benefit described above, legal expenses, corporate restructuring, and certain other costs, adjusted net income was \$99.3 million and adjusted diluted earnings per share was \$3.48. The adjusted diluted earnings per share was negatively impacted 32 cents by several items due to the increased severity of the COVID-19 pandemic including exclusion pay and higher medical claims, as well as 9 cents from performance bonus accruals.

Full year 2020 results:

Total revenue for 2020 was \$6.0 billion, an increase of 7.1% from 2019. The increase in total revenue was driven by a 1.8% increase in comparable restaurant sales and new restaurant openings.

Digital sales grew 174.1% year over year to \$2.8 billion and represented 46.2% of sales. About half of the digital sales were via delivery, benefiting from our expanded partnerships, with the remainder coming from order ahead transactions as guests better understand the value offered by this channel, as well as the convenience of more Chipotlanes.

We opened 161 new restaurants during the year, including six relocations, and closed nine, bringing the total restaurant count at year-end to 2,768. Of the 161 new restaurants opened during the year, 100 (or 62%) included a Chipotle. There are a total of 170 Chipotlanes as of year-end.

Food, beverage and packaging costs were 32.3% of total revenue, a decrease of 80 bps compared to 2019. The decrease was driven by menu price increases taken in the second half of 2020, favorable avocado pricing and better waste control. These benefits were partially offset by fewer sales of high margin beverages, COVID-19 related menu mix shifts, elevated beef pricing due to industry supply interruptions in the summer, and higher dairy pricing.

Restaurant level operating margin was 17.4% for 2020, a decrease from 20.5% in 2019. The decrease was driven primarily by

COVID-19 related impacts including increased delivery expenses, assistance and exclusion pay, elevated beef prices, increased incidence of steak, and fewer sales of high margin beverages. The decrease was partially offset by benefits from menu price increases, lower avocado pricing and improved labor efficiency realized from digital enhancements to the restaurants.

General and administrative expenses were \$466.3 million on a GAAP basis, or \$417.6 million on a non-GAAP basis, excluding \$35.5 million related to several legal matters and \$13.2 million related to transformation expenses, restaurant closure costs and certain other costs. GAAP and non-GAAP general and administrative expenses for the full year also included underlying general and administrative expenses totaling \$326.4 million, \$78.0 million related to non-cash stock compensation, \$7.1 million related to employer payroll taxes associated with equity awards, \$2.5M related to our All Manager's Conference, which was cancelled due to COVID-19, and \$3.6 million related to additional bonus accruals from our strong operating performance despite the pandemic.

The GAAP effective tax rate was negative 21.1% in 2020, compared to 23.6% in 2019. The decrease was primarily due to the federal net operating loss that is estimated for tax year 2020, which we expect to carryback to the preceding five years. We generated a net operating loss for tax purposes due to several factors, including the impact of COVID, increased tax deductions for equity vesting and exercises, accelerated tax depreciation deductions and various tax planning initiatives. The income tax benefit generated is due to the difference in federal tax rates between 2020 and the years that the federal net operating loss will be carried back to. On a non-GAAP basis, the 2020 full year effective tax rate was 15.3%.

Net income for 2020 was \$355.8 million, or \$12.52 per diluted share, compared to net income of \$350.2 million, or \$12.38 per diluted share for 2019. Excluding the impact of the tax benefit described above, legal expenses, corporate restructuring, restaurant asset impairment, and certain other costs, adjusted net income was \$305.0 million and adjusted diluted earnings per share was \$10.73.

More information will be available in our Annual Report on Form 10-K, which we expect to file with the SEC by February 9, 2021.

Outlook

For 2021, management is anticipating the following:

- Given on-going uncertainty surrounding the future impact of COVID-19 on the broader US economy and any specific impact to our company, we are not providing fiscal 2021 comparable restaurant sales growth guidance
- Around 200 new restaurant openings, which assumes minimal construction and permit delays related to COVID-19
- An estimated effective full year tax rate between 25% and 27%

Definitions

The following definitions apply to these terms as used throughout this release:

- **Comparable restaurant sales, or sales comps, and comparable restaurant transactions** represent the change in period-over-period total revenue or transactions for restaurants in operation for at least 13 full calendar months.
- **Average restaurant sales** refer to the average trailing 12-month food and beverage revenue for restaurants in operation for at least 12 full calendar months.
- **Restaurant level operating margin** represents total revenue less direct restaurant operating costs, expressed as a percent of total revenue.
- **Digital sales** represent food and beverage revenue generated through the Chipotle website, Chipotle app or third-party delivery aggregators. Digital sales exclude revenue deferrals associated with Chipotle Rewards.

Forward-Looking Statements

Certain statements in this press release, including statements under the heading "Outlook" about our anticipated comparable restaurant sales, effective tax rate and estimated number of new restaurant openings in 2021, and projected comparable restaurant sales for the first quarter of 2021, are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. We use words such as "anticipate", "believe", "could", "should", "estimate", "expect", "intend", "project", "target", and similar terms and phrases, including references to assumptions, to identify forward-looking statements. The forward-looking statements in this press release are based on currently available operating, financial and competitive information available to us as of the date of this release and we assume no obligation to update these forward-looking statements. These statements are subject to risks and uncertainties that could cause actual results to differ materially from those described in the statements, including but not limited to: the ongoing adverse effect of the novel coronavirus (COVID-19) pandemic on our guest traffic, restaurant sales and operating costs as a result of actions we have taken in response to the coronavirus, including closing some restaurants, ending dine in service at some restaurants while continuing to offer only takeout and/or delivery, modifying work hours at some restaurants, extending enhanced benefits to employees working during and/or impacted by the coronavirus, increasing compensation for restaurant employees, purchasing masks, gloves and additional sanitation supplies and services and delaying the construction of new restaurant openings; risks that the impact of the coronavirus pandemic will continue for a long duration and may require a more drastic response, such as closing all or most restaurants; risks of food safety and food-borne illnesses and other health concerns about our food; risks associated with our reliance on certain information technology systems and potential failures or interruptions; privacy and cyber security risks related to our acceptance of electronic payments or electronic processing of confidential customer or employee information; the impact of competition, including from sources outside the restaurant industry; the increasingly competitive labor market and our ability to attract and retain qualified employees; the impact of federal, state or local government regulations relating to our employees, employment practices, restaurant design and construction, and the sale of food or alcoholic beverages; our ability to achieve our planned growth, such as the availability of suitable new restaurant sites; increases in ingredient and other operating costs due to our Food With Integrity philosophy, tariffs or trade restrictions and supply shortages; the uncertainty of our ability to achieve expected levels of comparable restaurant sales due to factors such as changes in consumers' perceptions of our brand, including as a result of actual or rumored food safety concerns or other negative publicity, decreased overall consumer spending (including but not limited to the increase in unemployment caused by the coronavirus pandemic), or the inability to increase menu prices or realize the benefits of menu price increases; risks associated with our increased focus on our digital business, including risks arising from our reliance on third party delivery services, which are heightened during the pendency of government restrictions on dine in restaurant services as a result of the coronavirus pandemic; risks relating to litigation, including possible governmental actions related to food safety incidents and potential class action litigation regarding employment laws, advertising claims or other matters; and other risk factors described from time to time in our SEC reports, including our annual report on Form 10-K and quarterly reports on Form 10-Q, all of which are available on the investor relations page of our website at ir.Chipotle.com.

Average restaurant sales, excluding delivery MPI ⁽²⁾	\$ 2,200	\$ 2,192	\$ 2,161	\$ 2,217	\$ 2,205
Comparable restaurant sales increase (decrease)	5.7%	8.3%	(9.8%)	3.3%	13.4%

(1) Beginning in Q3 2020, we revised the definition of average restaurant sales to exclude delivery service revenues (refer to Definitions section above). We made this change to more closely align with how management views the business and given the increase in the delivery business. Average restaurant sales in all comparative periods presented has been updated to conform with the new definition. Average restaurant sales is a trailing 12-month measure.

(2) In Q3 2020, we began implementing delivery menu-price increases ("MPI") to partially offset the increased cost of delivery. "Average restaurant sales, excluding delivery MPI" represents average restaurant sales, as defined above, adjusted to remove the impact of delivery menu price increases. This is intended to illustrate our underlying food and beverage sales per restaurant.

RECONCILIATION OF NON-GAAP FINANCIAL MEASURES

The following table provides a reconciliation of non-GAAP financial measures presented in the text above to the most directly comparable financial measures calculated and presented in accordance with GAAP.

Adjusted net income is net income excluding restaurant asset impairment, corporate restructuring, distinct legal proceedings,

and certain other costs. Adjusted general and administrative expense is general and administrative expense excluding distinct legal proceedings, transformation expenses, restaurant closure costs and certain other costs. We present these non-GAAP measures in order to facilitate meaningful evaluation of our operating performance across periods. These adjustments are intended to provide greater transparency of underlying performance and to allow investors to evaluate our business on the same basis as our management, which uses these non-GAAP measures in evaluating the company's performance. Our adjusted net income, adjusted diluted earnings per share, and adjusted general and administrative expenses measures may not be comparable to other companies' adjusted measures. These adjustments are not necessarily indicative of what our actual financial performance would have been during the periods presented and should be viewed in addition to, and not as an alternative to, our results prepared in accordance with GAAP. Further details regarding these adjustments are included in the tables below.
