

# CHIPOTLE ANNOUNCES FOURTH QUARTER AND FULL YEAR 2022 RESULTS

FY22 OPERATING INCOME INCREASES 44.2% AND COMPARABLE RESTAURANT SALES INCREASE 8.0% AS MARGINS EXPAND

NEWPORT BEACH, Calif., Feb. 7, 2023 /PRNEWswire/ -- Chipotle Mexican Grill, Inc. (NYSE: CMG) today reported financial results for its fourth quarter and fiscal year ended December 31, 2022.

## Fourth quarter highlights, year over year:

- Total revenue increased 11.2% to \$2.2 billion
- Comparable restaurant sales increased 5.6%
- In-restaurant sales increased 17.5%, while digital sales<sup>1</sup> represented 37.4% of food and beverage revenue
- Operating margin was 13.6%, an increase from 8.1%
- Restaurant level operating margin was 24.0%<sup>2</sup>, an increase of 380 basis points
- Diluted earnings per share was \$8.02, compared to \$4.69. Adjusted diluted earnings per share, which excludes a \$0.27 after-tax impact from expenses related to certain legal proceedings, the 2018 performance share COVID-19 related modification, and corporate restructuring, was \$8.29, a 48.6% increase from \$5.58.<sup>2</sup>
- Opened 100 new restaurants with 90 locations including a Chipotle

## Full year 2022 highlights, year over year:

- Total revenue increased 14.4% to \$8.6 billion
- Comparable restaurant sales increased 8.0%
- In-restaurant sales increased 26.4%, while digital sales<sup>1</sup> represented 39.4% of food and beverage revenue
- Operating margin was 13.4%, an increase from 10.7%
- Restaurant level operating margin was 23.9%<sup>2</sup>, an increase of 130 basis points
- Diluted earnings per share was \$32.04, a 39.9% increase from \$22.90. Adjusted diluted earnings per share, which excludes a \$0.74 after-tax impact from expenses related to certain legal proceedings, the 2018 performance share COVID-19 related modification, corporate restructuring, employee separation costs, restaurant asset impairment and closure costs, and certain other costs, partially offset by an unrealized gain on investments, was \$32.78, a 29.0% increase from \$25.42.<sup>2</sup>
- Opened 236 new restaurants with 202 locations including a Chipotle

"We delivered strong growth in 2022, expanding average unit volumes and restaurant level margin, while opening the highest number of new restaurants in six years, despite facing a challenging and fluid macro environment," said Brian Niccol, Chairman and CEO, Chipotle. "Our continued focus on recruiting and retaining the best people, delivering Chipotle's operational standards with delicious food prepared fresh daily uniquely positions Chipotle to successfully expand to 7,000 restaurants over the long term."

## Results for the three months ended December 31, 2022:

Total revenue in the fourth quarter was \$2.2 billion, an increase of 11.2% compared to the fourth quarter of 2021. The increase in total revenue was driven by a 5.6% increase in comparable restaurant sales and new restaurant openings. Our in-restaurant sales increased 17.5% in the three months ended December 31, 2022, as compared to the three months ended December 31, 2021, while digital sales represented 37.4% of total food and beverage revenue.

We opened 100 new restaurants during the fourth quarter with 90 locations including a Chipotle. These formats continue to perform well and are helping enhance guest access and convenience, as well as increase new restaurant sales, margins, and returns.

Food, beverage and packaging costs in the fourth quarter were 29.3% of total revenue, a decrease of 230 basis points compared to the fourth quarter of 2021. Food costs benefited from menu price increases and, to a lesser extent, lower avocado prices. These benefits were partially offset by inflation across the menu primarily due to higher costs for dairy and tortillas.

Restaurant level operating margin was 24.0%, an increase from 20.2% in the fourth quarter of 2021. The improvement was primarily due to the benefit of sales leverage and, to a lesser extent, lower delivery fees associated with a lower volume of delivery transactions, partially offset by wage inflation and higher food costs.

General and administrative expenses for the fourth quarter were \$135.1 million on a GAAP basis, or \$129.4 million<sup>2</sup> on a non-GAAP basis, excluding \$3.7 million related to certain legal proceedings, \$1.1 million for a COVID-19 related modification to our 2018 performance shares made in December 2020, and \$0.9 million related to corporate restructuring. General and administrative expenses for the fourth quarter of 2022 also include \$118.9 million of underlying general and administrative expenses, \$18.3 million of non-cash stock compensation and an \$8.5 million benefit from lower performance-based bonus accruals.

The GAAP effective income tax rate was 26.3% in the fourth quarter of 2022, compared to 20.3% in the fourth quarter of 2021. The increase in the tax rate was primarily due to lower excess tax benefits from equity vesting and exercises, and a net increase in uncertain tax position reserves in 2022 compared to 2021. On a non-GAAP basis, the 2022 fourth quarter effective income tax rate was 25.1%<sup>2</sup>.

Net income for the fourth quarter of 2022 was \$223.7 million, or \$8.02 per diluted share, compared to \$133.5 million, or \$4.69 per diluted share, in the fourth quarter of 2021. Excluding the after-tax impact of expenses related to certain legal proceedings, the 2018 performance share COVID-19 related modification, and corporate restructuring, adjusted net income for the fourth quarter 2022 was \$231.4 million<sup>2</sup> and adjusted diluted earnings per share was \$8.29<sup>2</sup>.

During the fourth quarter, our Board of Directors approved the investment of up to an additional \$200 million, exclusive of commissions, to repurchase shares of our common stock, subject to market conditions. Including this repurchase authorization, \$413.9 million was available as of December 31, 2022. The repurchase authorization may be modified, suspended, or discontinued at any time. We repurchased \$198.9 million of stock at an average price per share of \$1,486.74 during the fourth quarter.

### **Results for the full year ended December 31, 2022:**

Total revenue for 2022 was \$8.6 billion, an increase of 14.4% compared to 2021. The increase in total revenue was driven by an 8.0% increase in comparable restaurant sales and new restaurant openings. Our in-restaurant sales increased 26.4% for the year ended December 31, 2022, as compared to the year ended December 31, 2021, while digital sales represented 39.4% of total food and beverage revenue.

We opened 236 new restaurants during the year, bringing the total restaurant count at year-end to 3,187. Of the 236 new restaurants opened during the year, 202 locations included a Chipotle. We had a total of 571 Chipotles as of year-end.

Food, beverage and packaging costs for 2022 were 30.1% of total revenue, a decrease of 50 basis points compared to 2021. The benefit of menu price increases was partially offset by inflation across the menu primarily due to higher costs for avocados, packaging, dairy, beef and chicken.

Restaurant level operating margin for 2022 was 23.9%, an increase from 22.6% in 2021. The improvement was primarily due to the benefit of sales leverage and, to a lesser extent, lower delivery fees associated with a lower volume of delivery transactions, partially offset by higher food costs and wage inflation.

General and administrative expenses for 2022 were \$564.2 million on a GAAP basis, or \$539.8 million<sup>2</sup> on a non-GAAP basis, excluding \$9.5 million related to certain legal proceedings, \$7.4 million for a COVID-19 related modification to our 2018 performance shares made in December 2020, \$3.9 million related to corporate restructuring, and \$3.5 million of employee separation costs. General and administrative expenses for full year 2022 also include \$440.9 million of underlying general and administrative expenses, \$84.9 million of non-cash stock compensation, \$13.8 million related to the biennial all-manager conference, \$7.7 million of employer taxes from equity vesting and exercises, and a \$10.3 million benefit from lower performance-based accruals.

The GAAP effective income tax rate was 23.9% in 2022, compared to 19.7% in 2021. The increase in the tax rate was primarily due to lower excess tax benefits from equity vesting and exercises, and a decrease in tax benefits related to return to provision adjustments in 2022 compared to 2021. On a non-GAAP basis, the 2022 full year effective income tax rate was 23.2%<sup>2</sup>.

Net income for 2022 was \$899.1 million, or \$32.04 per diluted share, compared to net income of \$653.0 million, or \$22.90 per diluted share for 2021. Excluding a \$0.74 per share after-tax impact from expenses related to certain legal proceedings, the 2018 performance share COVID-19 related modification, corporate restructuring, employee separation costs, restaurant asset impairment and closure costs, and certain other costs, partially offset by an unrealized gain on investments, adjusted net income for 2022 was \$919.8 million<sup>2</sup> and adjusted diluted earnings per share was \$32.78<sup>2</sup>.

More information will be available in our Annual Report on Form 10-K, which we expect to file with the SEC in early February 2023.

### **Outlook**

For 2023, management is anticipating the following:

- Based on January comparable restaurant sales growth in the low-double-digits, we anticipate first quarter comparable restaurant sales growth in the high-single-digits
- 255 to 285 new restaurant openings (including 10 to 15 relocations to add a Chipotle), which assumes utility, construction, permit and material supply delays do not worsen
- An estimated underlying effective full year tax rate between 25% and 27% before discrete items

### **Definitions**

The following definitions apply to these terms as used throughout this release:

- **Comparable restaurant sales, or sales comps, and comparable restaurant transactions,** represent the change in period-over-period total revenue or transactions for restaurants in operation for at least 13 full calendar months.

- **Average restaurant sales** refer to the average trailing 12-month food and beverage revenue for restaurants in operation for at least 12 full calendar months.
- **Restaurant level operating margin** represents total revenue less direct restaurant operating costs, expressed as a percent of total revenue.
- **Digital sales** represent food and beverage revenue generated through the Chipotle website, Chipotle app or third-party delivery aggregators. Digital sales includes revenue deferrals associated with Chipotle Rewards.
- **In-restaurant sales** represent food and beverage revenue generated on-premise. In-restaurant sales includes revenue deferrals associated with Chipotle Rewards.

## Forward-Looking Statements

*Certain statements in this press release and in the February 7, 2023, conference call are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995, including statements under "Outlook" about our goals for number of future Chipotle restaurants, restaurants with Chipotlanes and rate of expansion, future comparable restaurant sales growth, future estimated tax rates, future cash flow, and future long-term prospects. We use words such as "anticipate", "believe", "could", "should", "may", "approximately", "estimate", "expect", "intend", "project", "target", and similar terms and phrases, including references to assumptions, to identify forward-looking statements. The forward-looking statements in this press release are based on currently available operating, financial and competitive information available to us as of the date of this release and we assume no obligation to update these forward-looking statements. These statements are subject to risks and uncertainties that could cause actual results to differ materially from those described in the statements, including but not limited to: uncertainty regarding the resurgence of COVID-19 infections, the circulation of novel variants of COVID-19 and its ultimate impact on our business, including supply chain disruptions and difficulties in acquiring restaurant equipment, impact on guest traffic, restaurant sales and operating costs and the ability of our third-party suppliers and business partners to fulfill their responsibilities and commitments; increasing wage inflation and the competitive labor market, which impacts our ability to attract and retain qualified employees and has resulted in occasional staffing shortages; the impact of any union organizing efforts and our responses to such efforts; increasing supply costs (including beef, avocados and packaging); risks of food safety incidents and food-borne illnesses; risks associated with our reliance on certain information technology systems and potential material failures or interruptions; privacy and cyber security risks related to our acceptance of electronic payments or electronic processing of confidential customer or employee information, including through our digital app; the impact of competition, including from sources outside the restaurant industry; the financial impact of increasing our average hourly wages; the impact of federal, state or local government regulations relating to our employees, employment practices, restaurant design and construction, and the sale of food or alcoholic beverages; our ability to achieve our planned growth, such as the availability of suitable new restaurant sites and the availability of construction materials and contractors; increases in ingredient and other operating costs due to our Food With Integrity philosophy, tariffs or trade restrictions and supply shortages; the uncertainty of our ability to achieve expected levels of comparable restaurant sales due to factors such as changes in consumers' perceptions of our brand, including as a result of actual or rumored food safety concerns or other negative publicity, decreased consumer spending (including as a result of higher inflation, mass layoffs, fear of possible recession and higher energy prices), or the inability to increase menu prices or realize the benefits of menu price increases; risks associated with our digital business, including risks arising from our reliance on third party delivery services; risks relating to litigation, including possible governmental actions related to food safety incidents and potential class action litigation regarding employment laws, advertising claims or other matters; and other risk factors described from time to time in our SEC reports, including our annual report on Form 10-K and quarterly reports on Form 10-Q, all of which are available on the investor relations page of our website at [ir.Chipotle.com](http://ir.Chipotle.com).*

<sup>1</sup> Refer to definition of digital sales below. We updated the definition of digital sales in the first quarter of 2022 to include revenue deferrals related to Chipotle Rewards. We made this change to allow for a reconciliation to total food and beverage revenue as we now present In-restaurant sales.

<sup>2</sup> Restaurant level operating margin, adjusted diluted earnings per share, adjusted net income, non-GAAP general and administrative expenses, and non-GAAP effective income tax rate are non-GAAP financial measures. Reconciliations to GAAP measures and further information are set forth in the table at the end of this press release.

**RECONCILIATION OF NON-GAAP FINANCIAL MEASURES**

The following tables provide a reconciliation of non-GAAP financial measures presented in the text above to the most directly comparable financial measures calculated and presented in accordance with GAAP.

Adjusted net income is net income excluding expenses related to restaurant asset impairment, corporate restructuring, certain legal proceedings, stock-based compensation modification expense, unrealized gains on equity investments, separation costs, and certain other costs. Adjusted general and administrative expense is general and administrative expense excluding transformation expenses, certain legal proceedings, stock-based compensation modification expense, separation costs, and certain other costs. The adjusted effective income tax rate is the effective income tax rate adjusted to reflect the after tax impact of non-GAAP adjustments. Restaurant Level Operating Margin, a non-GAAP financial measure, is equal to the revenues generated by our restaurants less their direct operating costs which consist of food, beverage and packaging, labor, occupancy and other operating costs. This performance measure primarily includes the costs that restaurant level managers can directly control and excludes other costs that are essential to conduct our business. Management uses restaurant level operating margin as a measure of restaurant performance. Management believes restaurant level operating margin is useful to investors in that it highlights trends in our core business that may not otherwise be apparent to investors when relying solely on GAAP financial measures. We present these non-GAAP measures in order to facilitate meaningful evaluation of our operating performance across periods. These adjustments are intended to provide greater transparency of underlying performance and to allow investors to evaluate our business on the same basis as our management, which uses these non-GAAP measures in evaluating the company's performance. Our adjusted net income, adjusted diluted earnings per share, adjusted general and administrative expenses, adjusted effective income tax rate and restaurant level operating margin measures may not be comparable to other companies' adjusted measures. These adjustments are not necessarily indicative of what our actual financial performance would

have been during the periods presented and should be viewed in addition to, and not as an alternative to, our results prepared in accordance with GAAP. Further details regarding these adjustments are included in the tables below.
