- Chipotle Honey Chicken is available in Chipotle's High Protein Cup for the first time

NEWPORT BEACH, Calif., April 21, 2026 -- Chipotle Mexican Grill (NYSE: CMG) today announced the return of Chipotle Honey Chicken, which debuted in 2025 as the brand's best-performing limited-time offering and quickly became a fan favorite, driving record demand. The protein will be available in restaurants across the U.S., Canada, the U.K., France and Germany beginning April 28.

Made with freshly grilled chicken, marinated with smoky chipotle peppers and finished with a touch of pure honey, Chipotle Honey Chicken delivers a bold, balanced flavor that hits heat first, then sweet—a craveable combination that captures the energy of early summer in every bite.

A Flavor Trend Meets the Moment

Chipotle Honey Chicken sits at the center of one of the fastest-growing flavor trends in food: “swicy.” Sweet meets spicy. Heat meets honey. It's everywhere, from social feeds to restaurant menus.

But Chipotle's take stands apart—bringing this bold flavor to life with real ingredients, freshly prepared and made without artificial colors, flavors or preservatives. At its core are two signature ingredients—chipotle peppers and a touch of pure honey—creating a smoky, subtly sweet flavor that is distinctly Chipotle.

When it launched in 2025, the protein delivered the highest order rates of any limited-time offering in Chipotle's history.

“Chipotle Honey Chicken set a new standard for our limited-time offerings, and guests started asking for it back almost immediately,” said Stephanie Perdue, Interim Chief Marketing Officer. “It's proof that when we get flavor and timing right, we create something fans can't stop thinking about.”

A New Way to Experience Chipotle Honey Chicken

For the first time, guests can enjoy Chipotle Honey Chicken in Chipotle's High Protein Cup, offering a new, protein-forward way to customize their order.

Its return also continues Chipotle's momentum in menu innovation, following the recent return of Chicken al Pastor and introduction of Cilantro Lime Sauce earlier this year, and signals a broader push to bring more craveable, culturally relevant flavors to the menu in 2026.

For guests trying Chipotle Honey Chicken for the first time, Nevielle Panthaky, Senior Vice President of Culinary at Chipotle, recommends ordering a Chipotle Honey Chicken bowl with white rice, black beans, light roasted chili-corn salsa and guac.
